ABHISHEK RAMAMURTHY RATTIHALLI

+91 8431426683 rrabhishek000@gmail.com linkedin.com/in/abhishekace /

MCA student with a strong interest in data science and machine learning focused on understanding data deeply and turning it into meaningful, practical insights. Experienced with Python and core data science tools such as Pandas, NumPy and Scikit-learn with hands-on work in exploratory data analysis, feature engineering and predictive modeling. Enjoys breaking down complex problems experimenting with different approaches and improving model performance through careful analysis and iteration. Comfortable building end-to-end data workflows writing clean and maintainable code and applying data-driven thinking to real-world problems in fast-paced impact-driven environments.

ACADEMIC QUALIFICATION

- **Master of Computer Application** — **2024 - Present**
  R V Institute Of Technology — *Bengaluru, Karnataka*

- **Bachelor of Science** — **2020 - 2023**
  Govt First Grade College — *Hirekerur, Karnataka*

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Data Science:** Pandas, NumPy, EDA, Feature Engineering
- **Machine Learning:** Scikit-learn, Model Training & Evaluation
- **Databases:** MySQL, PostgreSQL
- **Visualization:** Matplotlib, Seaborn
- **Tools:** Jupyter, Git, GitHub,PowerBi,Excel, Snowflake, Spacy
- **Cloud:** AWS (Basics)

CERTIFICATIONS

- AWS Certified Cloud Practitioner, Issued by: Amazon Web Services
- Complete Web Development Bootcamp, Issued by: Udemy (Dr. Angela Yu)
- Introduction to applied data science with python, Issued by: Simple Learn.

PROJECTS

Build a Realtime Sales Forecasting AI Pipeline

- **Automated ML Pipeline:** End-to-end orchestration with Astronomer/Airflow.
- **Ensemble Modeling:** Combines XGBoost, LightGBM and Prophet for robust predictions.
- **Advanced Visualizations:** Comprehensive model performance analysis and comparison.

Multilingual Content Recommendation Engine with MLOps

- **Developed a multilingual recommendation :** engine utilizing cross-lingual NLP models and vector search to deliver highly relevant and personalized content across diverse languages.
- **Architected an end-to-end MLOps pipeline :** integrating tools like MLflow and Docker to automate model training, experiment tracking and ensure reliable, version-controlled deployments.
- **Deployed scalable, real-time inference APIs :** using FastAPI, reducing latency for content retrieval while establishing continuous monitoring for model drift and system health.
  [More Project : https://github.com/D0ACE **]**

Extracurricular activities: Core Organizer for the MCA "Advaya" tech fest as Marketing Head, and current volunteer educator for underprivileged youth at U&I NGO
